

Facemask Camera

visit facemaskcamera.com for more info

Providing fans, players and coaches with a unique view that no other camera can provide in full contact play!

Fans

Give fans a window into how the game is really played and what is really required on the field.

Build fan loyalty and provide "Insider Access" with game day footage of their favorite team.

Players

Get noticed by posting your highlight video using our unique camera angle. Let the world see your playmaking skills!

Review your performance and break down every decision and play you make.

Coaches

Gain insight into what players see on the field and how they react as plays unfold.

High Def video from the athlete's point of view allows coaches to analyze and teach all aspects of an athlete's on-field performance.

Join these teams and capture that special full contact video clip that excites fans!

- Tampa Bay Buccaneers
 - Nebraska Cornhuskers
 - Arizona State Sun Devils
- and many other teams from youth to professional!

"The University of Idaho used the Facemask Camera in numerous capacities this year. We put it on our quarterbacks, inside and outside line-backers and even on our safeties. We can't tell you enough how valuable this tool was to us. It helped our players tremendously to learn and see new things and also helped our coaching staff in correcting our players eyes and reads. The fact that we can use it in full contact drills and scrimmages, as well as put the cameras on any player we want to, is truly amazing and gives us a huge advantage."

- Robb Akey, Former University of Idaho Head Football Coach

Technical Specifications

- | | |
|---------------------------|--------------------------------------|
| • Product Size and Weight | 2.7 x 1.3 x 1.7 inches / 1.93 ounces |
| • Power Supply Embedded | 650mAh Li-polymer Battery |
| • Power Duration | 2.0 to 2.5 Hours / Consumes < 1W |
| • Working Temperature | 15 degrees to 145 degrees Fahrenheit |
| • Storage Temperature | 0 degrees to 150 degrees Fahrenheit |
| • Memory Supported Max: | High Speed 32 GB TF Card |
| • USB | 2.0 High Speed |
| • Video Resolution | 1280 x 720 |
| • Video Pixels | 3 Mega Pixel |
| • Recording Speed | 30 frames per second |
